

# EasyStripper™ Self Adjusting Wire Stripper

*This tool replaces multiple in your toolbox!*

*The only strippers you'll ever need for those wiring jobs!*

The EasyStripper™ multifunction wire stripping tool makes wire stripping fast and easy. This self-adjusting tool can strip wire from 10-24 gauge, stranded or solid core wire with one squeeze of the handles. Built of solid, high quality black oxide steel construction, the tool also provides connector crimp and any wire cutting capabilities built-in to the handle.

DESCRIPTION	PART NO.	MODEL
EasyStripper™ Self Adjusting Wire Stripper	LS-53-210	EZS

### Cutting

Easily cut aluminum and copper wires, coated and uncoated, up to 1/4" thick.

### Crimping

Capable of crimping insulated and non-insulated terminals and wires.

### Stripping

This tool works perfectly every single time.

Everything from household to automotive, speaker and HVAC wires, this tool can self-adjust to accommodate all wires and sizes from 10 to 24 AWG.

You can strip solid core and stranded wires, un-insulated, insulated and jacketed without harming interior wires.

It can even strip multiple wires simultaneously, saving you even more time!
